Honorable Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Applicant is requesting the Office to accept color drawings in the present application. Color drawings are necessary in the present application, as one figure (Figure 2) describes sequencing and alignment programs which are color-coded according to the specific nucleotide being sequenced. There is no other way to readily convey the information to one of skill in the art, as it is customary in this field to represent sequencing by color. Accordingly, Applicant requests the Office to accept the present Petition under 37 CFR §1.84(a)(2).
